

A group of business professionals in a meeting. In the foreground, a man in a light blue button-down shirt is smiling broadly and gesturing with his right hand. Behind him, a woman in a white lab coat and another man in a blue shirt are also smiling. The background is softly blurred.

Alfa Aesar

Working together,
building partnerships.

Focused on developing customer relationships

ThermoFisher
SCIENTIFIC

Introducing Alfa Aesar

Alfa Aesar, now part of Thermo Fisher Scientific is a leading manufacturer and supplier of chemicals, metals, and life science products for research and development.

Inorganics, Organic & Organometallic Compounds, Pure Metals & Elements, Precious Metal Compounds & Catalysts, Biochemicals, Fuel Cell Products, Nanomaterials, Rare Earths, Analytical Products, Laboratory Equipment and AA/ICP Standards.

Our areas of expertise

Leading supplier of fine chemicals for research

Where science meets service

With over 46,000 Alfa Aesar products in stock, we are the supplier of choice for chemicals, metals, and life science products for research and development.

- High purity inorganics
- Novel organics
- Precious metal compounds & catalysts
- Organometallics
- High purity metal products
- Solvents

Life science research chemicals

Quality products you can trust

As a leading supplier of life science research chemicals our quality biochemical reagents support academic and biotech research.

- Cell biology
- Molecular biology
- Proteomics
- Genomics
- Immunology
- Vascular biology

New product innovations

Immerse yourself in a new way of thinking

We offer highly specialized performance materials and products for electronics and nanotechnology industries.

- Cerion nanoparticles
- High purity materials for photovoltaics
- Fuel cells catalysts & components
- Precious metal catalysts
- Specialty silver salts

Specialty bulk services

Custom solutions for your needs

Specialty chemicals produced and packaged to meet exact specifications. Our in-house manufacturing capabilities set us apart from competitors, enabling us to offer products from gram to ton quantities. Globally supporting customers' requirements from research and development through to full scale production.

- Products from catalog to large scale quantities
- Technical specifications to fit your needs
- Custom synthesis
- Supply chain management
- Inventory control & availability
- Global sourcing expertise

Channel partners

Helping connect us to customers

Working together is fundamental when building a long-term partnership and we value our relationship with you.

We are focused on meeting the needs of your customers by providing quality products, outstanding service and unrivalled technical expertise.

Our commitment to you

- Open communication
- Sales support and product training
- Dedicated account manager
- Technical expertise
- Product quality
- Supply chain support

Our competitive advantages

- Global product range
- Over 46,000 products in stock
- Our bio range contains over 4,000 products
- Over 50 years of production experience
- Unsurpassed level of service
- Global sourcing capabilities
- In-house manufacturing
- Wide selection of specialized compounds
- Custom products and packaging
- Next day delivery available
- Competitive pricing
